

## INTERIOR DESIGNER

Studio McCue is a boutique architecture and interior design practice of 11 with collective experience in small, medium and large studios. Founded in 2024 by Chris McCue, we are building a steady portfolio of work across multi-residential, individual houses, townhouses, office buildings and hotels. We are establishing a body of work that is thoughtful, reasoned, intriguing and clever.

Working directly with the Senior Interior Designer and Founder, we are seeking a design-focused Interior Designer with a detailed knowledge of multi-residential interior design, with supporting experience in residential and commercial projects.

**Key Responsibilities**

- . Assist the Senior Interior Designer and Founder in developing projects from concept through to completion, collaborating with the team through all project stages including design development, documentation and delivery stages
- . Assist in ensuring technical feasibility of the concept/project by carrying out appropriate research
- . Prepare spacing planning, test fitting and schematic design outcomes
- . Prepare tender and construction documentation packages including drawings and schedules
- . Prepare project-related documentation accurately in Revit
- . Maintain up to date knowledge of products and material and assist in ensuring the accuracy of image and product library

**Skills & Experience**

- . 3-5 years post graduate experience
- . Proficient in Revit and Enscape
- . Strong 3D visualisation skills
- . Proven experience delivering multi-residential projects across varying scales.
- . Proven design capability with planning approval and delivery experience.
- . Sound understanding of apartment design principles, planning controls and construction methodologies.
- . Collaborative, design-driven approach with strong professional judgement.
