

About RBA Architects + Conservation Consultants

Located at the Paris end of Fitzroy St St Kilda and in practice for 25 years, our multi-disciplinary team of architects, historians, heritage experts and technicians assesses, conserves and creatively adapts and develops unique and culturally significant architectural structures and places.

Architectural Graduate / Architect

We are currently seeking an Architectural Graduate or Registered Architect with 4+ years experience

This position involves: research, analysis, design, documentation, and contract administration of building works to places of heritage significance (both conservation and adaptive reuse works).

Projects are very diverse. Primarily local, but also international and across all types including: commercial, ecclesiastical, educational, civic, community, industrial and residential.

Skills & Experience

- Minimum 4 years post-graduate experience
- Proven experience at all project stages
- Proficiency in contemporary and interpretive design and detail resolution
- Project Management skills with the ability to work on numerous diverse projects simultaneously
- Proven ability to influence and manage client and staff expectations
- Proficiency in AutoCad, Sketchup, MS Office and Adobe Creative Suite
- Experience in the use of Revit or Archicad favourable
- Experience working on a mix of project types
- Readiness to engage in the dynamics of heritage conservation in a contemporary environment
