

At k20 Architecture, our people are what make our buildings great.

k20 Architecture is a sustainable design practice located in South Melbourne, dedicated to providing the highest in Design, Sustainability and Performance excellence.

k20 Architecture is a progressive practice which aims to improve every aspect of our built environment. The practice is collegiate and operates in an open and collective manner. The well-being of our people is essential to the practice and we aim to create a workplace that enables us to be at our best. Working smart whilst exceeding our client's expectations is a key aim of the practice.

The core value of the practice is eco-centric design, in which we put the person at the center of our buildings and our buildings at the center of the ecology. We look to engage with like-minded clients in which we are able to demonstrate and deliver places of inspiration, imagination and well-being with the goal of leaving each and every place better than we found it!

We're looking for a talented Architectural Graduate to join our inspiring team, to work on a range of education, community, sports and healthcare projects.

The ideal candidate shall satisfy the following criteria:

- Currently residing in Australia
- Graduate Architect preference with minimum 1 year of local experience
- Intelligent with a positive personality and a proactive outlook
- Is honest and has integrity
- Excellent communication skills
- Excellent presentation skills
- Passion for design and sustainability
- Professional attitude with flexibility for varied project challenges
- Be able to work autonomously and in a team environment
- Revit experience
- Possess individual goals and plans to accomplish career growth path within the practice

The successful candidate will be involved in all stages of design and documentation to follow projects from start to finish being involved in making wonderful additions to our built urban environment.
