

PlannedLivingArchitects

Ready for a sea change?

We are on the lookout for talented people!

Are you;

- An experienced Project Architect?
- An experienced Documentation Specialist?
- Or an Interior Designer looking for part time or casual work?

Planned Living Architects are looking to expand our small and passionate team. We want someone who is easy going, friendly and really good at their job. You must be a team player, but also work efficiently independently. You are creative and a problem solver with a good eye for details.

Here at PLA we value a healthy work/life balance. We work efficiently during office hours and will not request of you or expect you to work overtime.

All positions require a minimum of 7 years' experience on complex, high-end residential projects. Salary commensurate with experience.

Please note: We are solely a Revit based studio.

PS: Our studio is a two minute walk to the beach – surfing in your lunch break is a real possibility!

If you think you can add to our small and friendly team, please send through your CV along with examples of relevant projects to careers@plannedliving.com.au
