

Project Architect position

About us

MOS is a small design orientated practice in Carlton.

We are all highly motivated and passionate about achieving the best and most appropriate design outcome on every project.

We are seeking a similar experienced Architect to join our team.

Residential projects have been at the core of our practice with works ranging in both scale and typology.

Job Description

The successful candidate must be design focused, highly motivated and have sound construction knowledge. The applicant will need to be a proficient AutoCAD documenter, with strong 3d skills (preferably Sketch-up)

You will be team focused, and able to manage clients and consultants through all phases of the design process.

Qualifications

- Architecture degree qualification
- The position requires a minimum of 5 years post graduate experience in residential and multi- unit residential projects.

Remuneration

Salary is dependent on capability and experience

Applications

To express interest, please send your CV and Portfolio to Max Miceli at info@mosarchitects.com.au
