

Position Available: O'Connor and Houle Architecture

O'Connor and Houle Architecture is seeking a Project Architect to assist with a range of high-end single residential projects.

The position is open to graduates of Architecture, ideally with 3-5+ years of relevant Australian residential project experience.

A good knowledge of town planning and the building regulations, as well as proven residential documentation skills in AutoCAD, is essential.

Experience in Contract Administration, and current registration in Victoria are ideal, but not essential.

The successful candidate will work closely with both principals and liaise with relevant consultants, authorities and/or clients throughout all stages of a project, with the purpose of delivering high quality architectural outcomes.

The position offers the opportunity to work in a small, collaborative, award-winning and long-standing design studio with a particular interest in craft, detail and sustainability.

Please forward your resume and folio (10mb max) to the Practice Manager at mail@oconnorandhoule.com. No downloads accepted.
