

The Practice

Content Studio is a Fitzroy-based architectural + design studio focused on highly considered design and exceptional client service. We work on public and private projects including community, education, and high-end residential.

The studio is growing and we are looking for an experienced architect to take a leadership role in the practice.

The Job – Experienced Architect

- Experience in mentoring graduate architects and running consultant teams.
- Comfortable managing stakeholder consultation processes.
- On-Site and Contract Admin experience.
- A strong design sensibility
- Knowledge of detailed documentation and construction methodology.
- Proficiency in working across different software platforms including Revit.

Responsibility and salary are negotiable to experience and skills. The studio is a flexible family friendly work environment and we can discuss alternatives to full time if required.

The Role

As a small studio our staff are expected to work across all areas of practice. One day you could be working on a concept, the next you might be running a site meeting. At Content Studio you would be part of a team. The staff work together across, and have input into, all projects in the office. We want opinionated people who are passionate about contributing in a collaborative environment.
