Queensland Chapter Job Notice Board

Architectural Graduate/Architectural Technician

BW Architects is a studio-based practice located in Newstead, Brisbane, delivering a diverse range of projects across a variety of scales.

Due to an increase in workload, BW architects are seeking an Architectural Graduate or Architectural Technician to work on a number of projects in the office. Candidates should have proven experience working with Archicad software, with the ability to create and compile construction documents as well as formulating schematic design concepts.

Construction knowledge and understanding across a variety of building types is essential, as well as a thorough understanding of the NCC BCA and AS1428.1 – Design for Access and Mobility. Candidates must be able to review consultant documentation and co-ordinate a concise and accurate final set of project documents.

Key Requirements:

- Architectural Graduate (3-4 years post graduate experience) or experienced Architectural Technician.
- Proven office experience documenting a variety of commercial buildings using Archicad software.
- Ability to work effectively within a small team environment.
- Knowledge of other software such as Microsoft Word/Excel and Adobe Photoshop would be beneficial.
- Must have good communication skills and attention to detail.
- Full-time role or Contract role available.
- Remuneration based on experience.

To apply for this position please submit your CV and folio to brent@bwarchitects.com.au
