

About RBA Architects + Conservation Consultants

Located at the Paris end of Fitzroy St St Kilda and in practice for 25 years, our multi-disciplinary team of architects, historians, heritage experts and technicians assesses, conserves and creatively adapts and develops unique and culturally significant architectural structures and places.

Architectural Assistant

We are seeking an Architectural Assistant (Conservation)

RBA Architects and Conservation Consultants is seeking an Architectural Assistant/Graduate to assist with a range of architecture, adaptive reuse and conservation projects.

This is an exciting role that requires a minimum 2+ years of relevant experience, design sensibility, knowledge of construction, attention to details, and a passion for the scientific material/architectural analysis of historic structures.

Skills & Experience

Candidates should have:

- Honours or Master in Architecture/Conservation or similar.
- Experience with building/material analysis and best practices in the conservation of the built heritage.
- Understanding of building/material defects and associated remedial actions.
- Familiarity with BCA/NCC and relevant Australian and International Standards.
- Proficiency in AutoCAD and Adobe, and ideally, Revit. Proven documentation skills in AutoCAD are essential.

The successful candidate will work closely with the director and the team with the aim of delivering quality architecture and conservation projects.
