

Senior Health Architect - Melbourne

Conrad Gargett is a multi-disciplinary practice with a focus on integrating architecture, landscape architecture, interior and urban design. With over 160 staff in 5 studios nationally and internationally, we have successfully developed a reputation for design in specialist buildings and various sectors including health, education, defence, multi-residential and more. Refer to our website www.conradgargett.com.au for more information.

We are now seeking a Senior Health Architect for our Melbourne studio. You should be a highly skilled architect with a focus on design and practical experience in delivering architectural projects. You should be highly proficient using Revit and be/have :

- A minimum of 7 years experience in professional practice – full new facilities, additions, renovations, departments with some large-scale, complex healthcare projects required.
- 5 years min experience working on a variety of healthcare projects including regional work – experience with Health Infrastructure essential
- A confident communicator with the ability to lead a small team
- Evidence of previously completed Department designs
- Demonstrated creativity, passion and interest in design and planning of healthcare facilities.
- Advanced knowledge of progressive technical and regulatory requirements for healthcare facilities design and understanding of fundamental departmental organisation and functionality.
- Advanced knowledge of healthcare delivery systems
- Actively completing IDP requirements.

The Senior Architect is required to work with Practice Leaders and fellow team members to manage the design concepts that are developed for a project and protect and sustain them through the project stages until the project is finalised. Further, they will assist with expanding and building relationships with potential and existing clients, consultants, authorities, contractors and collaborators. They will be able to influence the actions and opinions of others in a desired direction and have commercial acumen, evidenced by achieving a desired outcome through the awareness of associated costs and business risk.

At Conrad Gargett, our purpose is to create meaningful places for people. We recognise the contribution of our diverse backgrounds in fuelling our creativity and achieving this purpose. We strive to nurture and build a culture based on respect, trust and inclusiveness.

Architect - Melbourne

Conrad Gargett is a multi-disciplinary practice with a focus on integrating architecture, landscape architecture, interior and urban design. With over 160 staff in 5 studios nationally and internationally, we have successfully developed a reputation for design in specialist buildings and various sectors including health, education, defence, multi-residential and more. Refer to our website www.conradgargett.com.au for more information.

We are now seeking an Architect for our Melbourne studio. You should have 3-5 years of post grad experience, with a focus on design and practical experience in delivering complex buildings.

The role will encompass all aspects of concept design, documentation, contract administration, quality control, project management and client negotiation and management. The Architect is required to work with Practice Leaders and fellow team members to manage the design concepts that are developed for a project and protect and sustain them through the project stages until the project is finalised. You should be a skilled Revit user. You should be a confident communicator with the ability to work with a small team and to work autonomously.

At Conrad Gargett, our purpose is to create meaningful places for people. We recognise the contribution of our diverse backgrounds in fuelling our creativity and achieving this purpose. We strive to nurture and build a culture based on respect, trust and inclusiveness.
