ARCHITECT/ACCESS CONSULTANT, CANBERRA, ACT

Eric Martin and Associates is a long-standing niche architecture firm with specialist expertise in the provision of advice on conservation and adaptive reuse of heritage buildings and the assessment and design of buildings to ensure the provision of equal access for people with disabilities. These specialties are built on the foundation of architectural services of design, documentation and construction. We are one of the few practices in Australia that brings these three areas together into a universal design framework.

Being a small practice means you will have the opportunity to engage in all aspects of architecture, heritage and access and develop your own expertise and interest in these areas. We work in teams within a documented quality assurance framework to help manage projects and maintain consistency and quality of service for all our clients.

We are looking for an experienced architect and access consultant to assist in the demands on the Practice for the provision of disability access assessment and advice. Experience in the provision of access advice for people with disabilities and/or design for access using appropriate legislation, codes and standards is essential. Accreditation with the Association of Consultants in Access Australia and other access frameworks (such as LHA and SDA) is highly desirable. However in recognition of the specialist nature of the field will consider applicants who wish to develop this area of expertise and are willing to undertake the development required for accreditation.

As head of the Practice Eric Martin AM is highly regarded across the industry for his experience and knowledge in all areas of architecture undertaken by the Practice. Eric is a life fellow of the Australian Institute of Architects, a life member of the Association of Consultants in Access Australia and the National Trust of Australia (ACT) and has served on many local, national and international committees. Access to this expertise is rare and Eric is willing to support the successful candidate in developing their own reputation and expertise as an architect, heritage advisor and access consultant as part of this unique Practice.

If you wish to discuss any aspect of the position please contact Eric on the number above or eric@emaa.com.au

Applications should be addressed to Bronwynne bronwynne@emaa.com.au.
