

## GRADUATE ARCHITECT, LOVELL CHEN

### ABOUT THE OPPORTUNITY

We are looking for a highly motivated, Graduate Architect who has well developed visualisation ability and is passionate about good design to join the architectural team in our East Melbourne office. If you thrive in a collaborative environment and enjoy diversity and complexity in projects that span civic, educational, residential and commercial sectors we are interested in you.

The role focuses on the development of conceptual design and presentation visualisations in conjunction with developing your skills as an architect in collaboration with the design director and team. You will be passionate about and committed to the delivery of imaginative, intelligent, context-aware design outcomes that respond to client ambitions, site constraints and statutory requirements.

Key areas of responsibility include:

- Prepare and contribute to concept presentations and design visualisation
- Prepare detailed Revit documentation
- Work on projects across all phases with guidance from senior members of the team
- Liaise with clients and consultants

### ABOUT YOU

You will have 1-3 years professional experience in Australia and be able to demonstrate your ability to fulfill the role of a Graduate Architect and your ability to work effectively and collaboratively in a team environment.

Key professional skills required include:

- Proficiency in AutoDesk suite (REVIT), 3D visualisation software including Enscape3D, InDesign and Microsoft Office.
- Ability to independently develop architectural visualisations with an eye for detail and high level of accuracy
- Knowledge of and demonstrated ability to apply key regulatory and statutory requirements of Australian Standards, DDA, OH&S, National Construction Code, the Heritage Act 2017 and Burra Charter.
- Excellent communication and presentation skills.
- Excellent time management and organisational skills.
- Willingness to continue learning and developing knowledge.

### WHY LOVELL CHEN?

Lovell Chen combines architects and designers with heritage consultants, planners, conservation specialists, historians, researchers, materials experts and other specialists in aspects of the built environment. We are a dynamic, innovative practice in the way we approach our work — bringing together strategic thinking, design skills, technical expertise, research and experience. We offer the

opportunity to work with motivated and talented people on architectural projects of different types and scales. Our clients are varied, across government and non-government sectors.

We offer in-house professional development and encourage you to develop your skills and passion for architecture.

#### RENUMERATION

To be discussed, commensurate with experience.

#### APPLICATIONS

Your application should include your CV/Portfolio and a covering letter outlining your experience, as well as your contact details. Video submissions are accepted.

We regret that we cannot reply to every application received.
