Registered Architect (8–10 years' experience)

MGS Architects is seeking a passionate and experienced Registered Architect to join our dynamic team and help shape places that make a lasting social impact.

At MGS, we believe architecture should do more than meet a brief; it should enrich lives, communities and cities. We are looking for a skilled architect who shares our commitment to designing with purpose, and who is ready to contribute to the success of projects that span affordable and key worker housing, education, civic and community facilities, commercial workplaces and urban design.

You'll be working alongside a supportive, collaborative team across a range of projects for clients including State and Local Government, not-for-profit organisations, education providers, and private sector partners.

In this role, you will:

- Lead and contribute to our design culture
- Manage day-to-day project activities from concept to completion
- Coordinate and contribute to all phases of architectural delivery — from design to documentation and contract administration
- Collaborate with consultants, clients and internal teams to ensure high-quality outcomes

You will bring:

- 8–10 years' professional experience (preferably including education projects)
- Intermediate to advanced REVIT proficiency
- A drive to deliver design excellence
- Strong drawing, design development and documentation skills
- Solid understanding of construction and technical systems
- Excellent project and time management capability
- A collaborative, team-oriented mindset and excellent communication skills
- A genuine desire to make a difference through thoughtful, impactful design

This is a fantastic opportunity to work on meaningful architecture that aligns with your values in a studio that supports growth and design excellence.

Applications and CV should be sent via email to the attention of Elliot Spring at mgs@mgsarchitects.com.au

About MGS

Established in 1985, MGS Architects is an intergenerational design practice built on principles of integrity, optimism and purpose. Our portfolio is based on projects that align with our values, and our emphatic belief that our buildings and master plans can increase community connections, social inclusion and improve the lives of people they serve.

Our office resonates with our beliefs – we have long had a completely gender balanced workplace, with staff drawn from different countries (approximately 50% of our staff were born overseas). We celebrate our diversity and benefit from the richness it delivers. We have a positive and inclusive culture and offer flexible working conditions.
