RE: URBAN SCREENING – LETTER OF SUPPORT

The Australian Institute of Architects (Institute) is the peak body for the architectural profession in Australia. It is an independent, national member organisation representing over 11,500 members across Australia and overseas. More than 1,100 of these are based in Western Australia and are supported by the WA Chapter.

The Emerging Architects and Graduate Network (EmAGN) is a membership demographic of the Institute. EmAGN represents, advocates for and supports the interests of graduate and early career architects who are within 15 years of graduation from completing a Master of Architecture.

The Institute, and specifically EmAGN, strongly supports urban activation and cultural / knowledge exchange projects and write to support the Urban Screening project and its curatorial team.

The Institute, via EmAGN, has been involved with the event since its inception in 2014; providing administrative assistance, access to camera equipment, and promotion of the event through our national network. The event is important for the Western Australian design community as it provides an opportunity for students and practitioners to share their projects and ideas with each other and the broader public.

Yours sincerely,

Peter Hobbs FRAIA

STATE PRESIDENT WESTERN AUSTRALIA
