

FMD Architects is an architectural practice with extensive experience in architecture of varying scales, types and budgets. The core work of the practice is boutique residential and commercial work. The focus on specific projects enables a high level of client service as well as an intense design process with rigorous detail.

A particularity of the practice is its extensive research into materials and product development, which equips it with a knowledge to develop rich and inventive architecture.

Experience in high end residential work is essential with experience in construction detailing, documentation and town planning applications as well as on site experience. You will be working on projects from the initial concept sketches through to contract administration on site. Strong design skills and a sense of initiative are also highly valued as all team members are involved in the design process with the practice director. Proficiency in Archicad is desirable.

At FMD we value team members who embrace opportunity, seek to develop their skills, and appreciate offering support and mentoring each other. We are looking for someone who will thrive in a fast paced, collaborative and dynamic team environment. The role will suit someone with commitment to excellence in design, who is looking for a long term position where you can build on your skills and elevate position with the practice to a senior role.

Please apply in writing by submitting your CV and folio to fmd@fmdarchitects.com.au
