

## **Experienced Architecture Graduate/ Architect**

### **Practice Profile**

Since 2009, Windust Architects x Interiors have been delivering enduring and sustainable environments and maintaining valued client relationships. We draw upon our Australian x Japanese influences and stand out from others thanks to our spirit of adventure and commitment to beauty and joy.

We have an exciting pipeline of both residential and small commercial projects coming up, and we are looking to grow our team.

And as a valued team member, you will benefit from a supportive learning workplace culture, with the directors invested in a positive learning space. We encourage individual development and offer opportunities for advancement to leadership roles.

### **Job Description**

We wish to speak to graduates that have been working for a few years, or those that have recently registered.

Your ability to organise and communicate will stand you in good stead for the role. As will having experience in delivering high end residential architecture x interior projects.

You will look to take “ownership” of projects and enjoy the challenge of solving problems and working collaboratively.

### **Job Specifics and Program Knowledge**

- Experience in documenting high end residential projects. **Archicad** experience preferred, but not necessary.
- Excellent communication skills in working with others - builders, clients, consultants, and other team members.
- Ability to manage your own time and coordinate the work of others.
- Good knowledge of town planning and NCC preferred.
- Passion for good design, eye for detail, and a conscientiousness approach to project challenges.
