

**positions available: graduates of architecture**

We are seeking diligent graduates of architecture to join our design focused practice. Our team works across a range of sectors including institutional, residential, commercial and heritage, infusing a pervasive concern for considered design solutions into each architectural opportunity. Our projects utilize almost entirely traditional builder procurement processes with our team administering building contracts with site inspections to ensure the design intent is followed through to the last detail.

**we are looking for graduates of architecture who:**

- enjoy drawing
- are conscientious
- have excellent organization & communication skills
- enjoy the art and science of construction and putting buildings together
- have the ability, skills & motivation to work independently under our direction
- prepare drawings and documentation with a high degree of accuracy
- have some understanding of NCC and Australian Standards
- have good CAD skills
- have AACA approved tertiary qualifications in architecture
- are legally able to work and reside in Australia

**we offer**

- a friendly, dynamic, inclusive and passionate team environment
- Brunswick Street cosmopolitan location
- full time 38 hour week with no expectation to work after hours
- an environment focused on a qualitative rather than quantitative outcome
- a naturally lit office work space with aspect
- an environment connected with architectural discourse
- collaborative and respectful culture

**responsibilities of the role include:**

- maintain design integrity of projects
- deliver projects from design development through construction documentation to construction phase under the direction of a partner
- coordinate consultants, liaise with authorities and stakeholders, engage with suppliers and respond to builders' queries under the direction of a partner
- maintain accuracy of and organization of project documentation

**applications**
