RE: FULL-TIME PROJECT ARCHITECT ROLE

Sibling Architecture is looking for an outstanding and passionate project architect with 7+ years experience to join our team in Melbourne.

Why work for Sibling

Sibling Architecture is one of Australia's freshest design practices founded in a spirit of collaboration. This social desire to engage in open debate, and with contemporary architectural practice, is reflected in our strong mix of projects in the educational and cultural sectors, and underpinned by our experience in architecture, urban design, landscape architecture and interior design. We are seeking someone interested in leading a variety of projects in scale, type and sector: from educational and civic buildings, to urban design, residential architecture, design research and exhibition design.

You will be responsible for and have experience in:

- Leading and coordinating the design and documentation of multiple projects at various stages of a project lifecycle
- Overseeing projects during the contract admin phase, including responding to RFI's, EOT's and progress claims.
- Planning and managing the documentation flow of projects and the team
- Managing the exchange and coordination of documentation with the consultant team.
- Producing documentation models with a high degree of accuracy
- Effectively managing clients and have excellent communication skills
- Conducting regular reviews and quality assurance with your project team
- Nurturing graduates to grow their skillset
- Working closely with the leadership team to contribute to business development and advocate for Sibling Architecture
- Contributing to our studio culture of research and learning

Skills & Experience

- Degree/s in architecture with a vast knowledge of building codes and standards
- Registration with the Architects Registration Board of Victoria, or equivalent
- 7+ years experience post-graduation in an architectural practice, including the delivery of projects
- Rights to work in Australia
- Proficiency in Revit and Rhino is advantageous

About You

- Highly proactive and self driven
- Strong time management skills including the capacity to work across multiple projects at various stages
- Keen design eye with attention to detail

The Offer

- Flexible working conditions
- Convenient Swanston St Studio location
- A dynamic, driven and inclusive working environment
- Salary commensurate with experience
- Professional Development opportunities

To apply for this position, please forward your CV and portfolio with Project Architect in the subject heading to sister@siblingarchitecture.com prior to Friday, September 9th 2022.

Interviews will be held up to and after this date.
