

architects

Atelier Wagner Architects is an award-winning design practice, passionate about creating considered, socially and environmentally responsible designs that advance our built environment. We are seeking diligent architects to join our design focused practice. Our team works across a range of sectors including institutional, residential and heritage, infusing a pervasive concern for considered design solutions into each architectural opportunity. Our projects utilize almost entirely traditional builder procurement processes with our team administering building contracts with site inspections to ensure the design intent is followed through.

essential skills

- passionate about architecture
- enjoy being responsible for and managing projects
- enjoy developing a project through drawings
- enjoy the art and science of construction
- have great CAD skills (we utilize vectorworks)
- have the ability, skills & motivation to work independently under the direction of the partners
- have excellent organizational skills including an ability to prioritize tasks
- have a competent understanding of the National Construction Code and Australian Standards
- have AACA approved tertiary qualifications in architecture
- legally able to work and reside in Australia

responsibilities of the role include:

- nurture design integrity of projects
- deliver projects from design development through construction documentation to construction phase under the direction of the partners
- coordinate consultants, liaise with authorities and stakeholders, engage with suppliers and respond to builders' queries under the direction of a partner
- produce accurate drawings and project documentation

we offer

- a friendly, inclusive and passionate team environment
- Brunswick Street cosmopolitan location
- an environment focused on a qualitative rather than quantitative outcome
- a naturally lit, open work-space with aspect
- an environment directly connected with architectural discourse
- collaborative and respectful culture
