

Architect (Melbourne)

Are you an experienced Architect ready for a change?

Architectus has opportunities for talented, passionate people to join our Melbourne Studio. You will have the opportunity to work on new and exciting projects across some of our key sectors (Public, Education Commercial, and Residential).

About Architectus

We are a top-tier architecture and design studio specialising in public, commercial, education, interiors, residential, transport, urban design, and planning.

Our projects are design focused, sensitive to a changing climate, responsive to technological developments, and built to contribute to healthy and happy communities for generations to come.

Working in a fast-paced, high-performing, organisation with a welcoming and engaging team, you'll enjoy flexible work conditions, generous paid parental leave plus many more perks. You will work in our Melbourne studio alongside your 130+ colleagues and will also be part of our national practice spanning 5 office locations.

Your duties

- Design and documentation for complex projects across all project stages.
- Work closely with the senior project leads developing design strategy and ensure design excellence is achieved.
- Work in a collaborative environment with the internal project team.
- Contribute to the delivery of projects including on site observation.

Your experience

- 4-6 years post graduate experience (mid-level), 6+ years senior level.
- Strong collaboration skills and thrives as part of a team.
- Strong experience in Revit.
- Exemplary design communication skills to convey design concepts through imagery and diagrams.
- Architect registration or working towards registration.
- Working rights within Australia.

Architectus is proud to be an equal opportunity employer, we actively promote an inclusive workplace culture and encourage people from diverse cultural background and Aboriginal and Torres Strait Islanders to apply.
