Architecture Education

archi ed - How YOU can be involved...

If you're interested in communicating some of your thinking around architecture and design, we can facilitate a connection between yourself and a school that is keen to tie some of those thoughts in with the extensive primary or secondary schools' curriculum.

Presentations can take many forms:

- Front of class talk
- Interactive discussion
- Maker session

and can be with single class groups, curriculum based groups or whatever other grouping might be worked out between yourself and the school.

For more information and to register your interest please contact sa@architecture.com.au
