

ARCHITECTURAL VISUALISER JOB DESCRIPTION

KTA is seeking a design-focused, detail-minded and technologically skilled individual with a keen interest for architectural visualisation to join our team. Candidates with an eye for communicating the value of design through images, still and moving, are ideal.

The successful candidate will be expected to read and understand architectural drawings, create 3D models using Rhinoceros and renderings using V-Ray and Enscape as well as other forms of drawings and diagrams to help communicate design intents across all project phases, types, and scales. Candidates will also be required to produce sun studies and photomontages through planning phases and be skilled with post-production of images using the Adobe suite.

The ideal candidate will be able to balance commitments on multiple projects, project types and deadlines, and have an ability to work autonomously and as a member of a team as a confident collaborator.

Project Role & Responsibilities

- Build 3D models and create visualisations that communicate KTA's vision & values
- Work collaboratively with the project team to develop and resolve *design intents* throughout all stages
- Think laterally and find solutions around project impediments to help resolve detailing and design issues in 3D to align with the project's design agenda
- Maintain accuracy and high-quality outputs
- Balance multiple projects and deliver on deadlines

Office Role & Responsibilities

- Join one of KTA's internal committees focussed on the organisation and advancement of the practice
- Uphold, reinforce and advocate KTA's vision & values
- Proactively contribute to and improve KTA studio culture, systems and practises
- Be engaged and passionate

Qualifications

- A qualification in architecture is not required, however a deep interest in the field and demonstrated experience in the production of architectural visualisations is a must.

Software

- Rhinoceros (Version 5 and higher)
- V-Ray (Version 3 and higher)
- Enscape
- Adobe Suite— particularly Photoshop for post-production
- Revit experience is plus but not a requirement
- Knowledge of Adobe Premiere or similar video editing software advantageous but not required

Remuneration

To be discussed, commensurate with experience.

How to Apply

Send folio samples & CVs to hr@kerstinthompson.com with "Architectural Visualiser" in the subject.

Attachments are to be below 10mb.

Agency solicitations will not be reviewed.

About KTA

Kerstin Thompson Architects (KTA) was established in 1994. The work of the practice encompasses architecture, interiors, landscape and urban design. Our work is extremely varied and ranges in scale and program. Our work is unique and particular to the clients, environments and purpose at hand, with a focus on an enjoyment of place, sustainability and integration with landscape and community. The practice focus is on architecture as a civic endeavour; buildings that forge connections with their surroundings and the people who inhabit them. Design is necessarily integrated, multi-disciplinary and based on intensive collaboration between client, consultants and builders.
