

## Architect

### Trethowan Architecture

Cremorne, Victoria

#### About the Practice:

Trethowan Architecture was founded in 2001 and engages in bespoke architectural, heritage and interior projects. The practice, based in Cremorne, is supported by a dynamic and energizing team of architects and heritage professionals that are dedicated to the successful delivery of such projects.

#### Job Description:

Full time contract position for an architect or highly experienced graduate with a minimum of 5 years' experience to join a medium-sized, boutique architectural and heritage practice

#### Main Duties / Responsibilities:

- Working directly with a Principal Architect with exposure to tasks ranging from client brief, associated concept schematic design and town planning.
- With all aspects of the Architectural processes including contract administration tasks, involvement and attendance to client, conservation, site meeting as and when required

#### Qualifications:

- Degree in Architecture

#### Experience:

- 5 years previous experience in a similar role/industry
- Knowledge of construction details
- Competent use of Revit and AutoCAD
- Strong Design Background and Skills

#### Skills:

- Strong Design Skills
- Experience with design and documentation of high end residential (bespoke and low-medium density), educational and commercial projects
- Demonstration of experience with heritage projects would be highly regarded.
- Applicants should also display great communication skills and the ability to work independently, or lead a small team.
- The studio is predominately Revit with some AutoCAD as required.
- Good experience with obtaining both planning and building permits, and sound construction and on-site contract administration knowledge.
