

Experienced Architectural Graduate or Architect

Habitech is seeking an experienced architectural graduate or architect with a passion for creating more sustainable housing solutions and working in a dynamic modular design space.

ROLE

We are currently seeking an experienced graduate or architect with REVIT experience to work on the design and documentation of Habitech projects. This is initially a four day per week position for an immediate start, with the ability to move to a full time role in 2021.

CANDIDATE EXPERIENCE

The person we are looking for will be a self-starter and able to contribute to a design team as the company grows. They will be passionate about our environmental agenda, have an understanding of Passive House building science and be willing to advocate for designing and building in smarter and more effective ways. They will see the benefit of continuous refinement and a system based architectural approach in creating a truly sustainable building industry, based on measurable performance.

The person we are looking for is likely to have:

- At least 5 years of office experience in residential design, documentation and project delivery
- REVIT skills and experience - essential
- A track record in running residential projects and delivering quality design outcomes
- A practical understanding and experience in detailing and documenting residential projects
- A proven ability to manage consultants and work on multiple projects
- An interest in developing new models of BIM based design and documentation linking directly to manufacture
- A demonstrable understanding of sustainability issues, Passive House and an interest in innovation.

This is a fantastic opportunity for an experienced architect with an interest in how architectural services can be delivered in new ways to a broader audience. If you have a passion for residential design, we welcome your application to join our team and influence the way Australian housing is designed and delivered in the 21st century.

This position provides the opportunity to join a growing and dynamic company with excellent long-term prospects for career growth and development.

OFFICE CULTURE

We are a small team with a shared commitment to creating a professional and fun work environment. Our staff are motivated by the idea that we can provide excellent results for our clients that have a more sustainable environmental impact. We are currently working from home, but are usually based in a light-filled office overlooking the Fitzroy Gardens and St Patrick's Cathedral on the NE corner of the CBD.

With the current COVID crisis and restrictions creating challenges for induction and training in the short term, we are seeking a candidate with the ability to undertake some training days in the office as well as being able to work independently from home.
