

Practice Description:

Canvas Projects is an Architectural and Design practice based in Fitzroy, Victoria. We are Architects, designers and facilitators dedicated to the production of public and community Architecture. Our work seeks to respond to the context and stories, past and present, of the communities we design for. The Architecture of our practice and the culture of our studio is shaped by the collective experiences of our team. The strength of our team is in the diversity of experiences and perspectives that we each bring and is supported by our balanced approach to work being a part of life.

Position Description:

We are seeking to add to our motivated and talented studio team with a full-time experienced graduate of Architecture with 2+ years of post-masters professional experience in community and educational focused Architecture.

Applicants should have an interest in and capacity to engage with all facets of project delivery, from concept to post-construction and the proven ability to engage with all practice staff, clients and external consultants, have excellent verbal and written communication skills and the ability to:

- assist in the delivery of accurate and coordinated design and construction documentation;
- communicate with external consultant disciplines and coordination of their project inputs;
- work well within project teams and autonomously;
- efficiently self-manage time and achieve project deadlines.

The successful applicant will work directly with and report to the practice Senior Architects and Directors and will contribute positively to the studio culture.

The position is available for an immediate start for the right candidate.

Applicant Requirements:

Minimum 2+ years Graduate of Architecture.

Skills / Knowledge:

Archicad v22+, Adobe Suite, Microsoft Office Suite
