Now Hiring – Architects Melbourne, Sydney, Brisbane

Fender Katsalidis is seeking talented people to join our team.

We're an award-winning architectural firm with offices in Melbourne, Sydney and Brisbane and landmark developments across Australia and Asia. We've designed Melbourne's tallest, most recognisable pair of buildings, the soon-to-be second-tallest skyscraper in the world and the largest private museum in the Southern Hemisphere, among others.

Structures aside, we're equally proud of the culture we've built here at FK. Which is why we aim to hire people who share the same passion for design and the built environment as they do for teamwork and collaboration.

We are looking for talented people to join our team registered architects in Melbourne, Brisbane & Sydney are encouraged to apply.

As the newest member of the FK team you will:

- Have proven experience working on projects of scale, across all project phases.
- Have excellent interpersonal, written, and verbal communication skills and the ability to develop productive working relationships and manage those relationships with maturity and confidence.
- Be able to manage multiple priorities and to work under pressure with a degree of autonomy while meeting project timeframes.
- Be able to work effectively in a multi-disciplined project team.
- Ability to work under pressure, managing multiple conflicting priorities and meeting timeframes.
- Be commercially astute, with strong financial management and negotiation skills.
- Have strong consultant coordination experience and ability to manage external stakeholders efficiently.
- Utilise effective problem solving and negotiation skills to make informed, timely, and effective decisions.

This important role will involve:

- Utilizing key architectural skills such as concept planning, sketch design, design development, consultant coordination etc. to contribute to FK's wide range of projects.
- Using your construction knowledge to produce documentation to a high standard when required, or to assist those team members who need assistance in producing documentation.
- Attendance on site including working with clients, builders, and consultants whilst on site to maintain FK's design standards.
