

Position Available

Graduate of Architecture

About MAA

We are a medium, nimble practice, delivering high quality residential and commercial buildings of various scales. We are looking for an Graduate of Architecture to work on a broad range of exciting new projects.

Our staff come from diverse backgrounds and range from graduates to senior project architects with 20+ years of experience. We design and document in 3D using ArchiCAD, we are not fully BIM but we are working towards this and all staff, no matter what level, use it.

We value a commitment to design excellence and encourage engagement in the refined design of projects.

The role

Your role will vary depending on the size of the project and your demonstrated ability. You will be assisting project teams with the delivery of projects. On any day, your tasks may include modelling existing conditions, markups, planning submissions, prepare schedules, following up with suppliers and helping organise the office.

Experience Required

Communication is the most important skill for a Graduate. You should demonstrate the ability of using a 3D software, experience with Archicad is preferred.

Qualification

Masters of Architecture or equivalent

Essential Skills

Excellent communication
Experience with BIM software (ArchiCAD preferred)
Adobe Creative Suite
Flexible thinking
Love what you do

Offer

Salary commensurate with experience
A+ membership
Great office located in 45 Wangaratta Street, Richmond near Richmond Station

Other

We recently won a National Architecture Award for our Wangaratta Street Project, where our office is located on the fifth floor.

Why are we advertising

We have several new projects and we are looking to expand the team to increase flexibility for staff.

Applications

Submit your applications including cover letter, resume, sample folio to applications@maarchitects.com.au by 14 April 2021.
