

DATE : 4 OCTOBER 2021

REF. : CAREER OPPORTUNITY - JUNIOR

Architect / Architectural Graduate

Are you hands-on, and passionate about sustainable design ? Would love to be part of a great team, while creating beautiful, contemporary architecture? And feel that all stages from initial sketches to documentation are part of the design process? Then you could be a great fit.

We are a looking for an allrounder, a graduate or already registered, with a minimum of 2 years experience, who wants to work on exciting projects, working directly with and learning from the directors.

We are a multi-award winning small practice with a growth plan, and a lot of benefits that we'd love to share with you. You would be working mostly on exciting residential projects with a sustainable approach, some of them designed and procured as passive houses, throughout various stages. Our work also tends to include a fair bit of interior design and focuses on the way we live, and how we can create a better future.

What you should bring :

- a degree in architecture and/or building design, and a thirst for continuous learning
- passion for good design with a keen eye for detail
- passion for the environment and for a sustainable future
- knowledge of / experience in passive house principles - ideally you are a certified passivhaus designer, or keen to become one
- proven experience in high-end residential + commercial
- proficient in Vectorworks BIM software (at least by the time you would start the position)

We are pretty open and flexible, so we are happy to discuss part-time/work from home arrangements or other special requests, to accommodate parenting needs or just because you want to !

This is a great opportunity to grow with the practice and to stay involved with all facets of our profession, and more. It's never boring here... And of course we are happy to look at your particular likes and dislikes, or strengths and weaknesses, with you, and help you develop your role into something that fits you like a custom tailored suit. The successful applicant will enjoy a range of benefits, like additional holidays, possible savings plan for your home and more.

If this sounds like a great fit, we'd love to hear from you. Please get in touch with us now - email to HR@MelbourneDesignStudios.com.au, or via our website form. Applicants must be eligible to work in Australia. Any questions before you are applying (that would be me :-), please feel free to email or call the office first.

We look forward to hearing from you,
The Team at Melbourne Design Studios (MDS).
