

Senior Revit Technician

Kosloff Architecture is an award-winning design practice and registered BCorp that specialises in public and educational architecture. We are currently seeking an ambitious and culturally engaged Senior Revit Technician to join our growing team. We believe that the creation of an authentic and engaged practice culture is integral to producing high quality and lasting architectural design, and that the nature of the workplaces that we build should be equally aspirational in terms of what they provide for the people that work there, as well as collaborators, and the broader community.

We are looking for someone with:

- High level of construction and detailing knowledge with excellent documentation skills
- Problem solving skills and proactiveness
- Advanced Revit skills
- 5-10 years local experience
- Experience in education, commercial and public sectors
- Ability to work both independently and as part of a team on projects of varying scales
- Experience in planning and leading the documentation phase of a project
- Excellent communication skills

Your responsibilities will be to:

- Plan and manage the documentation workflow of projects and the team
- Produce documentation and models to a high degree of accuracy
- Manage the exchange and coordination of models with the consultant team
- Assist in the ongoing development and administration of the practice Documentation Standards and BIM Management standards and ensure their consistent application
- Ability to create and manipulate complex Revit families
- Prepare project programs for documentation delivery working with the management team

We offer:

- Five weeks of annual leave a year
- Structured professional development and mentoring programs
- Flexible working conditions
- A dynamic, engaged, inclusive and passionate team environment
- Employee ownership scheme
- Convenient Flinders Lane Studio location

Please email a succinct CV and portfolio to contact@kosloffarchitecture.com
