Institute of  
Architects

## Learning Outcomes – Llewellyn Hall Concurrent Sessions

- Discuss the nature and extent of issues of non-conforming and non-complying building products in Australia and governments' response to major failures.
- Identify the common factors determining building product selection.
- List the five issues and proposed deliverables to address these put forward in the ABCB's National Building Product Assurance Framework.
- Enumerate key impacts of climate change on architecture and its practice.
- Discuss the arguments for a national relocation strategy.
- Explain how concepts of consent, authority and participation arise in the context of planned relocation.
- Identify lessons from historical cases of relocation.
