## **Learning Outcomes – Manning Clark Hall Concurrent Sessions**

- Enumerate the priorities and perceptions of resident groups in evaluating apartments, as reported in the High Life Study.
- Describe the relationship between the policy performance of multiresidential buildings and resident mental wellbeing elucidated by the Study.
- Identify the key policy documents shaping apartment design in Melbourne, Perth and Sydney.
- Describe the gender discrepancy in shouldering combined work/carer roles in architecture and the career impacts reported by women in the Diversity.
