Project Architect

About MAA

We are a small, nimble practice, delivering high quality residential and commercial buildings of various scales. We are currently working on a diverse range of projects including: 28 town houses, 60 unit apartment projects, several single houses and a 7 level office building.

Most of our clients are repeat clients, a testament to our focus on exceeding clients' expectations and delivery outstanding built projects.

Our staff come from diverse backgrounds and range from graduates to senior project architects with 20+ years of experience. We design and document in 3D using ArchiCAD, we are not fully BIM but we are working towards this and all staff, no matter what level, use it.

We value a commitment to design excellence and encourage engagement in the refined design of projects.

The role

Documenting and delivering projects as part of a larger team. Your role will vary depending on the size of the project and your demonstrated ability. You may be documenting and delivering parts of an apartment building or a single house in conjunction with more senior staff.

Experience Required

You should have demonstrated experience documenting and completing contract administration on a house with the support of a senior architect.

Qualification

Registered Architect or working towards registration in the next 6 months.

Essential Skills

- Excellent communication
- Experience with BIM software (ArchiCAD preferred)
- Flexible thinking
- Love what you do

Offer

- Salary commensurate with experience
- A+ membership
- Great office located in 45 Wangaratta Street, Richmond near Richmond Station

Other

We recently won a National Architecture Award for our Wangaratta Street Project, where our office is located on the fifth floor.

Why are we advertising.

We have several new projects and we are looking to expand the team to increase flexibility for staff.

Applications

Submit your applications including cover letter, resume, sample folio to applications@maarchitects.com.au by 3 December 2021.
