

# A NEW KNOWING

We chose this photo because of its lack of graphic violence yet powerful depiction of human suffering.

Our story shows a representation of a shift in global consciousness from the current state of the world. We offer a message, a manifesto, a revelation.

## IMPLOSION

The world has imploded from the cruelty that mankind has become. An earth and mother nature ravaged, peoples and faiths polarised.

## FRAGMENT'S

A result of war, famine, human conflict, carnage. Products of man, his ego and the struggle for survival and domination. Our modern world promised utopia, but is broken and incomplete. Life on earth teeters on the brink of extinction and human despair causing the system to crash.

## PROVOCATION

Our manifestation conveys a message to instil renewed hope and trust in the collective psyche. A unified rebellion heralds a pause in the race, a halt in the hunger for more, because faster, richer, greater is not winning, it comes at a grave cost to our humanity.

## REVELATIONS

We neglected the brilliance that emerges from the cracks, the beauty within the joins. We envision a spiritual epiphany that transcends beyond the mortal self: our fears, contempt, vulnerabilities. A new consciousness that seeks to emancipate the soul from its co-dependence on social materialism.

Instead we crave enriched, meaningful, empathic livelihoods. To rekindle the essence of who we are, distinct from the automated robotics of our sterile creations. To harness the good from our wreckage of smarts, to find deeper respect for each other and the world at large.
