

Position: Architect / Senior Project Architect

About Us:

At Silver Thomas Hanley, we believe architecture provides the rare opportunity to shape the world through built form. Through our evidence-based approach, we know that good design combines space, light, scale, and sound, to create a human experience; balancing form with function, and colliding creativity with innovation.

With nearly 70 years' experience, Silver Thomas Hanley is proudly one of Western Australia's largest and most dynamic architectural practices. We're committed to a culture which fosters creativity, collaboration, and design excellence. This is driven by our vision to be an employer of choice - attracting, nurturing, and retaining the very best talent.

The Opportunity:

Silver Thomas Hanley are seeking an experienced Project Architect to join our highly collaborative, Perth-based studio. Ideally suited to a highly motivated individual with exceptional attention to detail and communication skills. The role is perfect for someone who is seeking an opportunity to challenge themselves, progress their career and lead the successful delivery of some of Western Australia's largest and most exciting projects.

Skills and Experience:

- Significant documentation experience of large-scale, complex projects
- Demonstrated experience in managing the project lifecycle from concept to completion
- Highly creative and passionate about delivering functional, human centered design solutions
- A motivated self-starter, who works well both autonomously and within a team
- Proficiency in Revit (intermediate -advanced)
- Architectural registration

How to apply:

Apply online by uploading your application including a cover letter, CV and portfolio via our website
