

## Position: Revit Architectural Technician

### About Us:

At Silver Thomas Hanley, we believe architecture provides the rare opportunity to shape the world through built form. Through our evidence-based approach, we know that good design combines space, light, scale, and sound, to create a human experience; balancing form with function, and colliding creativity with innovation.

With nearly 70 years' experience, Silver Thomas Hanley is proudly one of Western Australia's largest and most dynamic architectural practices. We're committed to a culture which fosters creativity, collaboration, and design excellence. This is driven by our vision to be an employer of choice - attracting, nurturing, and retaining the very best talent.

### The Opportunity:

Silver Thomas Hanley are seeking an enthusiastic and experienced Architectural Technician to join our Perth-based studio. The ideal candidate is a team player, who also works well autonomously and is seeking the opportunity to work on some of Western Australia's most interesting projects. This full-time position would be well suited to skilled Revit technician with a keen focus on construction detailing and preparation of quality documentation.

### Skills and Experience:

- 5-10 years' experience as an Architectural Technician or draftsman
- Proficiency in Revit
- Meticulous attention to detail
- Significant technical knowledge and capability to deliver a project through design development, construction documentation and site phases.
- Sound knowledge of standard construction methods and materials
- Excellent communication and interpersonal skills

### How to apply:

Apply online by uploading your application including a cover letter, CV and portfolio via our website
