

Project Architect Position

Preston Lane is an award-winning design focused practice with offices in Melbourne and Hobart.

We are a small to medium sized practice undertaking projects of varying size, complexity, and cost. We are currently working on a range of project typologies across both our Melbourne and Hobart studios including residential (new houses and renovations/extensions), commercial (office and small multi res), education, local government, heritage, and hospitality.

Our studio is a fun, relaxed, hard-working environment, and our close-knit team works together on all aspects of the architectural process. Preston Lane is a great place to learn and take responsibility for projects with the support of more experienced Architects. We support gender equity and diversity.

A full-time position is available in our South Yarra studio for an exceptional Project Architect with 5-10 years' post graduate experience, who has demonstrated skills in design and delivery of high-end residential houses including interiors, along with small-scale commercial multi residential projects. We are seeking a hardworking, easy going, enthusiastic and confident person that is looking to work as a key member of our team. You might be close to registration or been registered in Australia and working as a Project Architect for several years.

We are interested in meeting applicants looking for a long-term career move with salary commensurate to skills and experience.

This role will require you to work both independently and collaboratively with Directors and team members, on all stages of projects from feasibility, concept design, documentation and detailing, through to contract administration.

Our office has recently begun the transition from AutoCAD to Revit so candidates with experience using Revit will be preferred.

Our ideal candidate will demonstrate:

- Strong design experience and importantly a passion for design.
- A can-do attitude.
- Ability to adapt and work across multiple projects.
- Ability to work independently and as a member of a team.
- Demonstrate initiative and proactive approach to daily tasks.
- Excellent written and verbal communication skills.
- Excellent Documentation skills (AutoCAD and Revit).
- Exceptional technical knowledge, construction detailing including nutting our beautiful architectural details and drawing management skills.
- Ability to confidently and independently co-ordinate and liaise with clients, consultants, authorities, and builders.
- Experience using Adobe Creative Suite and Sketchup.

Please email a cover letter, CV and portfolio to melb@prestonlane.com.au

All Applications will be treated in strict confidence.
