## Project Architect

**Employer:** Splinter Society Architecture

**Position Title:** Registered Architect (VIC) with a **minimum of 7 years experience.**

**Commences:** Negotiable

**Employment Basis:** Full Time

**Remuneration:** To be negotiated and in line with experience and current market rates

**Location:** Fitzroy, Melbourne

### About us:

Splinter Society is an award winning design studio known for highly detailed architecture and interiors. Our current work includes residential, multi-res, hospitality, wellness/tourism and other interior fit-out work (see [www.splintersociety.com](http://www.splintersociety.com)). Whilst relaxed and friendly, our office is professional and dedicated to producing very creative and individualised work for our clients.

### The position:

We are seeking an experienced Project Architect to join our Fitzroy based team.

This full time position is available to an individual who is independent, organised, able to manage workloads to meet deadlines and clients needs, and who can contribute to the professional and social goals and values of the office.

Applicants should be able to demonstrate:

- Excellent written and verbal communication skills
- Proficiency in Autocad, Adobe Suite, sketchup and Microsoft Office. (Experience in additional graphics programs a benefit.)
- The ability to lead and produce detailed and accurate documentation that ensures the successful delivery of medium scale and singular residential projects.
- A proven track record of working on complex buildings with multiple and diverse stakeholders.
- The ability to take initiative and work independently.
- Experience in building and managing client relationships.
- Capacity to support graduates and less experienced members of our team

The successful applicant will be working in a small team on multi-residential projects, with the possibility of some residential and tourism projects. This will be under the guidance of Splinter Society Directors, but will require experience managing a team of consultants to develop project requirements.

We are looking to employ an applicant who is both qualified, and considers this as a longer term career move.

All applicants must be eligible to work in Australia with all visas in place prior to application.

Application procedures:

Please e-mail your CV, portfolio and contact details to Asha Nicholas.
