

## Project Architect

### Who are we?

NH Architecture is a leading Australian design studio founded on the principles of collaboration & open debate, where architects and designers are united by a commitment to creating outstanding contemporary architecture. Our collective expertise in architecture, urban design, master planning, interior design and graphic design enables us to deliver complex and high-profile projects through from conception to delivery.

We are looking for a Project Architect to work as part of our delivery team to lead and produce detailed and accurate documentation that ensures the successful delivery of complex and large-scale public buildings. The successful candidate has a proven track record of working on complex public buildings with multiple and diverse stakeholders, including government authorities.

### To give you a taste for the role, you will be responsible for:

- Leading in the production of reports and documentation packages to tight deadlines
- Reviewing and commenting on drawings produced by other team members
- Working with the wider project team to ensure all aspects of the project are coordinated
- Attending and presenting documentation at large team meetings
- Ability to prioritise work streams, and clearly communicating priorities to team members
- Ensuring the documentation aligns with reports produced in the concept, scoping and design phases
- Coordinating the synthesis of information from consultants and contractors into the documentation
- Actively contributing to internal team and extra discussions regarding project delivery

### What you can bring to the table:

- Degree or degrees qualified in Architecture
- Master of Architecture (preferred)
- Registration with the Architects Registration Board of Victoria, or equivalent overseas registration
- Minimum 5 years' work experience in an architectural studio on delivery projects
- Experience working on large scale, complex projects, healthcare advantageous
- Strong proficiency in Revit (5+ years)
- Technical knowledge of project delivery requirements
- Producing technical drawings and documentation at a senior level
- Ability to undertake all detailed aspects of the delivery of large-scale public and commercial projects
- Deep knowledge of structural, electrical, and mechanical engineering related to buildings
- Proficiency in Rhino (Advantageous)
- Experience using the Microsoft Office Suite
- Ability to establish, lead and maintain cooperative relationships with team members, internally and externally
- Strong and clear communication skills, both written and verbal

## Project Architect
