RE: FULL-TIME PROJECT ARCHITECT ROLE

Sibling Architecture is looking for an outstanding and passionate project architect with 7+ years experience to join our team in Melbourne.

Why work for Sibling

Sibling Architecture is one of Australia's freshest design practices founded in a spirit of collaboration. This social desire to engage in open debate, and with contemporary architectural practice, is reflected in our strong mix of projects in the educational and cultural sectors, and underpinned by our experience in architecture, urban design, landscape architecture and interior design. We are seeking someone interested in leading a variety of projects in scale, type and sector: from educational and civic buildings, to urban design, residential architecture, design research and exhibition design.

The ideal candidate is design-focused and technically skilled. They are confident in client facing-responsibilities and excellent at managing projects and staff. Experience in educational, public and cultural projects is preferred along with Revit skills.

You will be responsible for

- Leading and coordinating the design and documentation of multiple projects at various stages of a project lifecycle
- Strong time management skills including the capacity to negotiate and prioritise conflicting priorities
- Delivering quality projects on time and budget
- Effectively managing clients, consultants and technical specialists
- Conducting regular reviews and quality assurance with your project team
- Nurturing graduates to grow their skillset
- Working closely with the leadership team to contribute to business development and advocate for Sibling Architecture
- Contributing to our studio culture of research and learning

Your qualifications

- Degree/s in architecture
- Registration with the Architects Registration Board of Victoria, or equivalent
- 7+ years experience post-graduation in an architectural practice, including the delivery of projects
- Rights to work in Australia
- Proficiency in Revit and Rhino is advantageous

To apply for this position, please forward your CV and portfolio with Project Architect in the subject heading to sister@siblingarchitecture.com prior to **Friday, August 13**. Interviews will be held after this date.
