

STRINE ENVIRONMENTS

Architect

“Design is the process of creative problem solving”

Strine Environments believes in creating joyful living environments, demonstrating how to make the best possible use of every site and making a meaningful contribution to climate change.

We are looking for an architect to join our team!

How do you know if this is the job for you?

- Are you passionate about sustainability?
- Do you want to shape the future in modular offsite construction?
- Do you have an interest in design and construction delivery?
- Do you like concrete?
- Are you an Autocad/Revit expert?

About the company

At Strine, we strive to enable a positive environmental impact by utilising the unique climate potential of a site to enable sustainable living, in comfort and at a reasonable cost. We have been providing sustainable buildings in the Canberra region for over 30 years.

Currently based in Queanbeyan NSW, you will become an integral part of the next phase of growth for our business with a move into our new office and production facility based in Bungendore NSW. This new phase will allow Strine to showcase our manufacturing facility and construction on-site, right before the clients' eyes. The new office in Bungendore will display Strine's E³ modular and two storey 'warehouse' designs, which will create a light and bright passive solar work environment.

About the Role

We are currently seeking an enthusiastic Architect with about 5 years' experience to join our small team to take on this long-term opportunity.

The Architect will be a key part of the business, working closely with the Design and Construction teams.

Responsibilities will include:

- Design and documentation for homes and unit developments
- Production of construction drawings and details
- Keeping drawings up to date to ensure the building process is as smooth as possible
- Coordinating structural engineering details and updating drawings to suit
- Working to time frames and budgets on all projects and being accountable

Skills required:

- 5+ years' experience
- Proficiency in the use of Revit & Microsoft Office

- Working knowledge of Residential Design Codes, Building Codes and relevant Australian Standards
- Good knowledge of residential construction
- Must be competent with sections and details
- Ability to follow precise directions
- Strong attention to detail
- Ability to work as part of a team
- Ability to organize a busy workload

This position is available for an immediate start. Salary package will be negotiated dependent on experience.

Application

Please submit a cover letter and your CV to emma@strineenvironments.com.au.
