Dear Minister Archer, Minister Ferguson and John,

Thank you for your continued communication with the building and construction industry and your willingness to hear from the Tasmanian Chapter of the Australian Institute of Architects and our members.

As outlined in our previous letter, we have compiled a list of stalled projects from our members. This is not an exhaustive list and firms have provided different levels of details. Some firms have provided projects that they feel will have a large amount of economic and community impact, while others have detailed a range of projects across the board. For many, the projects outlined represent only a small portion of stalled or cancelled work.

A couple of attachments are included from firms and if further information is required for any of these projects, please don't hesitate to let us know for us to follow up.

We hope you appreciate that much of this information is sensitive and confidential, and we trust that you will keep it so. However, if there is a need to pass any of this information on, please let us know so that we can communicate with the relevant architect.

Yours sincerely,

Shamus Mulcahy
Tasmanian President
Australian Institute of Architects

Jennifer Nichols
Tasmanian Executive Director
Australian Institute of Architects
