

Position: Senior Project Architect

The Mill is...

The Mill is an award-winning, multi-disciplinary design firm in Canberra, Australia, that works across areas of architecture and interior design in a mix of residential, commercial and government sectors.

We have a special passion for creating beautiful, climate-responsive housing. We feel that home is truly a sacred space and deserves to be considered accordingly. We believe in designing intimate, thoughtful spaces for our clients that we work hard to deliver together with builders who share our love of craftsmanship over scale.

Led by directors, Shannon Battisson (Architect) and Sarah Welsh (Interior Designer), we have over 25 years of experience between us. We are focused on building transparent client relationships, long-term sustainability, and cost-effective service to provide clients with designs that are considered from all angles, and are the most efficient, economical and pleasing resolution for a design.

Our studio is an extension of our home, and we are looking for a like-minded designer to join our team and fill the role of Senior Project Architect.

We want...

An experienced project architect with a minimum of five years' experience post-registration
Someone with a strong background in the documentation for solar passive residential construction in Australia, and is proficient in the use of ArchiCAD

You are...

Dedicated to delivering quality solutions
Comfortable working on both small and large projects, locally and nationally
Able to work independently or collaboratively in a team
Willing to learn, lead and do
Excellent with people and love to communicate
A collaborator with a genuine desire to work as part of a tight-knit team
A lover of dogs!

Benefits...

A diverse role providing opportunity to work on a range of industries and clients across the country
A team of professional architects and interior designers motivated to deliver exceptional design outcomes
A supportive and creative work environment in a great inner-south location
Flexible working conditions
