BIM MANAGER / BIM COORDINATION / REVIT TECHNICIAN

Wood Marsh is known for its sculptural and playful approach to form, our use of a refined material palette, and an enduring contemporary language that results in practical and unique designs. With nearly 40 years of influential history, our diverse body of work includes art galleries, wineries, private homes, multi-residential towers, and extensive urban infrastructure.

Our established mid-sized Port Melbourne studio consists of a diverse range of passionate, collaborative and capable individuals that work together as a team to deliver high-quality designs. We offer a fun studio culture that prioritises a good work/life balance, and the opportunity for professional growth and development.

Job Description:

We are looking for a passionate and committed BIM Manager/Technician to join our team on a full-time ongoing basis. The role presents an opportunity to work on projects such as infrastructure and other typologies across multiple stages as described in person. Full working rights and appropriate visa required

The responsibilities of the role include but are not limited to:

- BIM and digital engineering management of large-scale projects
- BIM / Digital engineering lead across the projects working closely with WM's Design leads & BIM manager to fulfil requirements of Digital Management plans.
- Working collaboratively across multiple teams
- Managing complex digital submissions at all stages of project cycle.
- Setting up project models / imports / exports / bespoke family creation / work sharing / Autodesk construction cloud / BIM 360 / bluebeam / integration software into Revit workflows etc.
- Opportunity to teach skills across office and direct complex modelling of building components.
- Coordination between key consultants in digital space.
- Set project standards and processes in place to ensure WM upholds quality control of documentation.

Program Knowledge:

High level of Revit proficiency is essential
