

# WORKSHOP ARCHITECTURE

Based in West Melbourne, Workshop Architecture is an architectural, interior design and urban design practice with an established reputation for an innovative design in the public and private sectors.

We are dedicated to a contemporary position in architecture, along with a commitment to creating well-crafted, technically and conceptually resolved projects. We provide a supportive studio environment in where our ambitions as a practice are pursued in good humor and with great care.

Workshop Architecture is looking for a Project Architect to join our practice. The position will be an ongoing, full-time role on projects from concept design through to completion. We are looking for someone interested in contributing to, and leading, a variety of projects - from educational and public buildings, to residential architecture and exhibition design. As part of a practice of eleven, you will operate in small teams and work closely with each director.

The role is for someone of around 5 years' experience, with a minimum of 3. We use Revit across all scales of projects so skills with that program are preferred. Registration is welcome but not essential.

Please contact Workshop Architecture at [mail@workshoparch.com.au](mailto:mail@workshoparch.com.au) to register your interest and forward CV prior to Friday 05.11.2021.

Following interviews, our intention is that the successful applicant joins the practice just prior to, or immediately following, the Christmas holiday period.
